Annual Quality Assurance Reports (AQAR): Annexure 6

Best Practices

Best Practice 1: TITLE OF THE PRACTICE: STUDENTS MENTORING SYSTEM

OBJECTIVE: The goal is to establish a trusting relationship between the Mentor and the Mentee and to help the mentees attain their aims.

CONTEXT: A set of twenty students are assigned to faculty mentors from their first year. Mentors create a better environment for their mentees and the mentees can approach their mentors for educational, personal guidance and knowledge enhancement.

Best Practice 2: COMMUNITY DEVELOPMENT AND ENVIRONMENTAL SENSITIVITY

OBJECTIVE: Creating Environmental awareness. Conserving natural resources, and the environment. Promoting a clean, green environment. Making the public conscious of dangers to the environment.

CONTEXT: With growing awareness of the dangers that development is posing to the environment, the only way forward is a collective responsibility towards and ownership of the environment. The need to initiate action for the protection of our immediate environment is perceived as urgent. Unless this awareness comes in the formative years and when people are still young, chances are, it never will.
