CURRICULUM

List of Certificate Programs / Add on Programs

S.No	Name of the Program	Topics Covered
1	Two Weeks Certificate Course on Rapid Prototyping	<ul style="list-style-type: none"> • Proof of concept prototypes • Demonstration or presentation model prototypes • Functional prototypes • Aesthetic or industrial design prototypes • Final factory sample • Alpha & beta build prototypes
2	A Two week certificate program on robotics & Automation	<ul style="list-style-type: none"> • Neural computation • Models of computation • Artificial neural networks • Mcculloch-pitts model • Different network structures • Approximation of nonlinear phenomenon • Boolean functions • Associative Memory. • Adaptive Resonance Theory. • Genetic algorithms for learning neural networks.
3	A Two week certificate program on Solar & Smart Energy Systems	<ul style="list-style-type: none"> • This includes practical exposure to solar energy production along with the real-life application of • charging a battery • Students also learn the concepts of Smart energy and other industry trends like green energy, smart • building, smart grid and energy harvesting technologies • In today's time its a need to switch to renewable energy sources to save our climate, save non- • renewable energy, reduce pollution, money saving etc • In this workshop students will learn about the benefits of renewable sources like Solar Energy with • practical exposure on how to use solar energy and covert it to smart energy with some real time
4	A Two week certificate program on Big data & Hadoop	<ul style="list-style-type: none"> • About Hadoop • Hadoop Architecture • Hadoop Frame work • Underastanding bigdata • Hadoop Ecosystem • Hadoop Installation on Ubuntu • Programming Skills. Hadoop runs on a combination of programming languages • Knowledge of SQL is crucial regardless of the role you want in Big Data

5	A Two week certificate program on Retaining Walls	<ul style="list-style-type: none"> • Retaining walls • Parts of retaining walls • Types of retaining walls • Design of retaining walls • Failures of retaining walls • Live structure of retaining walls
6	A Two week certificate program on Android Application Development	<ul style="list-style-type: none"> • Apps and APK Files • Activities. • Fragments. • Views and ViewGroups. • Layout XML Files. • Intents. • Widgets.
7	A Two week certificate program on Solar Tracker System	<ul style="list-style-type: none"> • This includes practical exposure to solar tracker system along with the real-life application • Students also learn the concepts of solar energy and other industry trends like green energy, and energy harvesting technologies • In this workshop students will learn about the photoresistor sensors and dc. • Write programming logic for working of the solar tracker. • Test solar tracker to automatically follow the direction of highest light intensity.
8	A Two week certificate course on Disaster Management & Role of Geographic Information System	<ul style="list-style-type: none"> • Introduction to disaster, approaches to disaster risk reduction • Principles of disaster medical management, public health response and international cooperation • Disaster risk management in India and case studies • Role and application of GIS in disaster management and mitigation(DMM)
9	A Two week certificate program on Cryogenics	<ul style="list-style-type: none"> • Cryogenic fuels • Cryogenic heat treatment • Cryogenic rocket fuels • Methods to produce low temperature
10	A Two week certificate program on MatLab & Its applications	<ul style="list-style-type: none"> • Neural computation • Models of computation • Artificial neural networks • Mcculloch-pitts model • Different network structures • Approximation of nonlinear phenomenon • Boolean functions
