NAME OF THE PROGRAM: REPORT ON WOMEN'S DAY

The theme for International Women's Day 2019, which took place on 8th March, is **"Think equal, build smart, innovate for change"**.

The theme will focus on innovative ways in which we can advance gender equality and the empowerment of women, particularly in the areas of social protection systems, access to public services and sustainable infrastructure.

International Women's Day is a celebration of womanhood and acknowledgment of their contribution to the social, political, cultural and economic achievement of a nation. The celebration of womanhood cannot be confined to just a day. However, to push for women's rights, International Women's Day is celebrated across the globe.

Women are suffering on many fronts. For example, though we are in 2019, gender disparity still prevails in society. World Economic Forum said the gender gap won't be bridged until 2186.

A 2017 report stated that global equality gap between men and women won't vanish before 100 years. It also brought attention to the pay gap. The report claimed that in 2017, women worked "for free" for almost 51 days of the year because of the gender pay gap.

2017 was also the year when MeToo campaign gained worldwide popularity when women across the world openly spoke about sexual harassment and abuses they have faced. Even TIME magazine named these women- 'The Silence Breakers', their Person of the Year. However, in India, it was 2018 when MeToo movement became widespread with women calling out their sexual predators openly on social networking sites.
